

The Wizard Stencil Container Frames

Available in 3 styles and 3 sizes to fit Wizard Stretch Frames

Our plastic stencil container frames for foil stencils will dramatically reduce your setup time and cost, and reduce shipping costs for all your surface mount solder paste stencil printing operations. The container frames are an integral part of the Wizard Frame System.

- ✓ Significant cost savings
- ✓ Lifetime limited guarantee
- ✓ Increased image printing area
- ✓ Reduced storage space requirements
- ✓ Drastically lowers shipping charges
- ✓ No need to return used frame castings
- ✓ Fast setup time (10 seconds)
- ✓ No need to epoxy stencils
- ✓ Stencil & plastic frame are machine washable

64 to 80 contact points securely hold the foil stencils and protect worker's hands from sharp edges.

The Wizard Container Frames

Introducing The Wizard Stencil Frame System for Surface Mount Solder Paste Stencil Printers.

The Wizard Frame System consists of two frames that securely hold your stencil. The patented plastic Container Frame (Patent # US 6,494,134 B2) protects your technicians from injury during handling of the stencil's razor sharp edges. The stencil is firmly held in these molded plastic Container Frames with up to 80 contact points for precise tensioning. The Container Frames also reduces the chance of stencil damage during shipping, handling and storage. These lightweight container frames are available in three materials for specific applications:

- Green frames are designed for lead free applications**
- Standard White nylon are durable for long term usage**
- Bright White styrene are designed to be economical**

ADVANTAGES:

- ✓ **Cost savings are significant when ordering stencils with the Container Frame from your stencil manufacturer.**
- ✓ **The system offers you a larger available printing area**
- ✓ **Eliminates the need to epoxy stencils to frames**
- ✓ **Greatly reduces your storage space requirements**
Eighty - 20" x 20" stencils require less than 2'x3' of floor space
- ✓ **Drastically lowers your shipping charges**
(Container frame and foil weigh less than 1 lb.)
- ✓ **Stencils can be changed over in 10 seconds without tools**
- ✓ **The Container Frame with stencil is machine washable**

DESIGN FEATURES:

- Stencil tension is Increased or Decreased easily with the amount of air pressure used.
- Greater clearance allows for larger board image area.
- Frames are designed to fit standard industrial adapter frames with a 21 and 21.5 bolt pattern.

ORDREING INFORMATION:

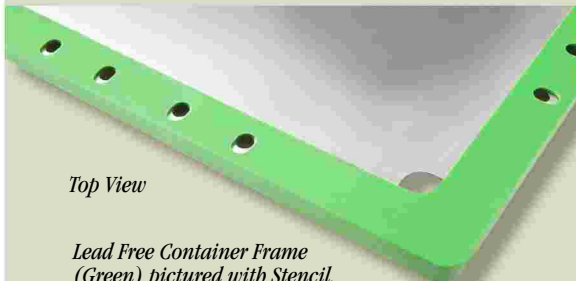

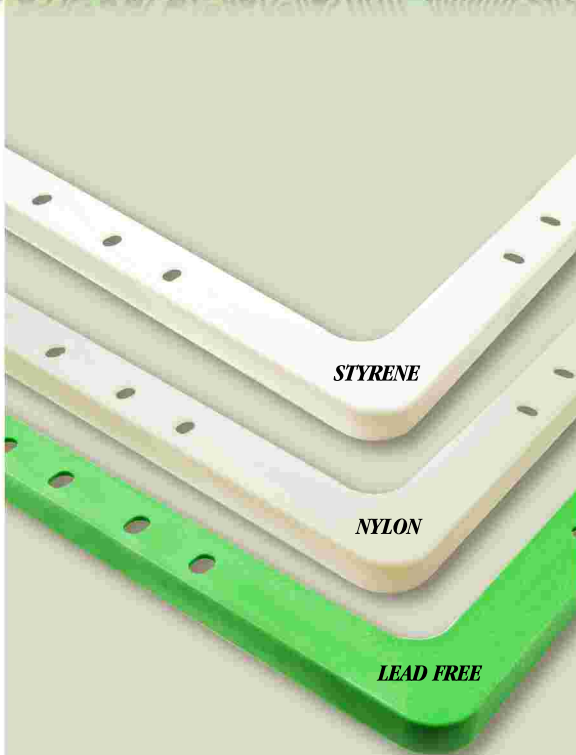

20" x 20" Container frames are packaged 80 per box @ 26 lbs.

20" x 29" Container frames are packaged 25 per box @ 11 lbs.

29" x 29" Container frames are packaged 26 per box @ 13 lbs.

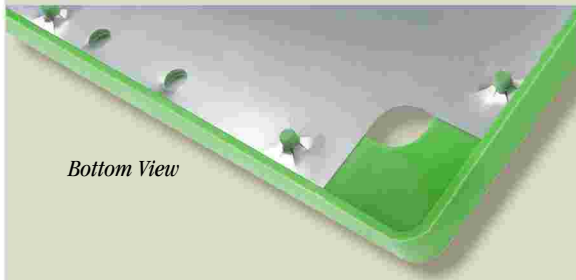

Please specify the frame material required (lead-free, nylon or styrene)
