The Wizard Soft Foil Storage Solutions

The Wizard Soft Foil Storage solutions are designed for economical frame storage.

Rugged storage rack is made here in the US of quality extruded aluminum. Each QTS plastic frame and stencil is held securely between injection molded guides at the top and bottom, ensuring a perfect fit. Stencil's are easy to store and identify. These racks come with 2 locking castors for mobility.

QTS, Inc. manufactures 3 standard racks but will custom design a rack specific for your needs. Our injection molded guides can be machined removing 1 rib for a 1x24x24 frame or removing 2 ribs so a 1.5 x 29 x 29 can be accepted. We have custom manufactured many racks and would be happy to quote your needs. You can also purchase our injection molded guides separately.

Locking castors offer mobility when needed

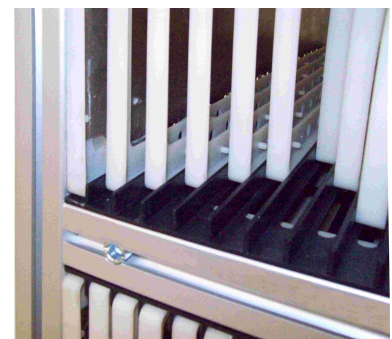

Racks accommodate stencil frames of:

20" x 20" - Holds 300 stencils in only 2'x5' of floor space

20" x 29" - Holds 300 stencils in only 2'x5' of floor space

29" x 29" - Holds 200 stencils in only 2'x5' of floor space

The QTS Storage Racks can be delivered fully assembled within 100 miles of our facility in Medway MA 02053 (via QTS Delivery Truck) Shipping charges apply. Racks can also be shipped UPS (assembly required). Assembly is easy and requires only a Phillips screwdriver and 5/23" Allen wrench)

Stencil frames slide in/out easily

The QTS Storage Rack shelf guides are precision molded to accommodate the QTS Stencil Frames and provide safe storage with quick access from either side of the storage rack. They can also be custom machined to accommodate custom requirements.

MC & VISA accepted
